@CÝBIKO™

WIRELESS INTER-TAINMENT SYSTEM

Quick Start Guide

WWW.CYBIKO.COM

Version 1.2
© 2000 Cybiko Inc.

TURN IT ON BABY!

Just hit the <Esc> button once to turn it on. The <Esc> button also gets you out of any application or game!

When you first turn it on, you should fill in the *About You* and *About Me*. You can choose to do it later if you want! Whenever you do it, just remember to follow the incredibly simple guidelines. That way you will be way compatible with all those other Cybiko users out there!

Pick a cool name for yourself! One that totally rocks, and is all about what you are about!

Following the on-screen instructions is easy, but you may want to remember to get the info to change you need to use the arrow keys.

Clue number 1: Just keep in mind that some of the fields ask you for stuff like hobbies and purpose, those you will need to use the arrow keys or <Select> to change. The rest of the info you can just type!

Clue Number 2: Use that white stylus in the back of the Cybiko! (It can help if you have burley fingers!) Not bad huh? Okay…Remember it is not a touch screen!

NOW YOU HAVE ACCESS!!

Smart move! If you're reading this, you have just picked up the only pocket-sized, totally wireless, Internet entertainment system on Earth!

Cy-SIGN:

So what is with this 🅒 (Cy-Sign) thing? It lets people know you are now capable of communicating on a completely higher level. But you already knew that, didn't you? Read on…

CyID:

CyID is your personal identification code, your ticket to a whole new world. It's the seven capital bold-faced characters on the back of your Cybiko following the 🅒. Know it, love it, pass it around!

GAMES

Your Cybiko comes with some cool games, some you can play by yourself, and some you play with friends! Do not worry if the games on your Cybiko are different from your friends. Why? We are always adding new and cooler ones to your Cybiko every day, that's why!
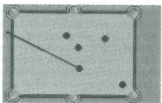

1. Rover (Find the gold, but don't get eaten!)
2. Lost in Labyrinth
   (You may want to bring a friend along on this one!)
3. The CyLandia Demo
   (Can't wait for the real thing, huh?)
4. CyRace (You have the guts to win?!)
5. Billiards (Show your friends who the real shark is!)

And a whole load of other cool stuff!

Check them out! When you highlight the game picture on the Games Toolbar and hit <Enter>, Cybiko will take you to a short intro (It lets you know what you are getting into). When you are done reading, hit <Enter>, and start playing! (You can turn this off later.)

Clue Number 3: If you forget how to play, or are just wondering about the rules, hit that little question mark above the keyboard on the right, it will let you know what is going on!

And there is MORE…MORE games from **www.cybiko.com** for FREE every day… did I say they're FREE!?

ABSOLUTELY!!!

CYBERLOAD

Remember this word! It is your CYBER Loading LINK to all the FREE stuff pal! Here is how you do it:

1. Go to www.cybiko.com
2. Click the link that says *Download Games*.
3. Click the link under any of the games that says *How to Download*.
4. Click the link that says: *Click Here to download CyberloadSetup.exe*.
5. Then, just follow the easy on screen instructions, and you will be ready for a whole new world!

Take the cord from the box and plug one end into your PC and the other into your Cybiko! Now, you are ready to get all the cool stuff from cybiko.com!

Clue Number 4: If you need a reminder of where to find CyberLoad after you have installed it… Here it is! Start > Programs > Cybiko > CyberLoad! It's that easy!

Just remember, to use CyberLoad, you need to be connected to the Internet, that way you will be able to download all the cool free games and applications!

While you are in CyberLoad, all you have to do is click the box in front of all the games and apps you want. Hit that little button at the top middle <download> – and you are in business!

Hint Number 5: Internet > CyberLoad > Cybiko Off > Cybiko On.

Use Cyberload frequently and often, like right out of the box everyday. New apps, games and OS upgrades available now!

CHAT, FRIEND FINDER, PEOPLE

Okay, so now that you have used the games, (of course we knew you would go straight for them!) it is time to seek out some other applications!

You probably heard about the wireless messaging and chat – good news, everything you have heard is true! You can get with some friends and send messages without wires or service fees up to 300 feet!

Okay, enough talk, here is how to do it. On the Main Desktop you'll find the picture for *People* (CyCommunity). This is one way to search for other Cybiko's in your area. (Find someone near you, like in a mall or your favorite hangout!)

1. When the icon is highlighted hit <Enter>. Now you're ready to start hunting for friends.
2. If you want to see everyone in the network, use the arrows to highlight *All People*, and hit <Enter>.
3. The next screen will tell you who is there.
4. Select someone and hit <Enter>.
5. The next page that comes up is all about that special someone you just chose.

Do you want to *Chat*, view their *CyPage*, *Profile*, *Photo*, or add them to your *phone book*? The choice is yours!

Chat Rooms

The chat rooms are totally cool, you have all sorts of topics to choose from: Romance, Computers, and Sports… But you can talk about anything you want! Just highlight the Chat Icon, hit <Enter>, pick a room, and join in the fun!

Hint Number 6: Hit <Tab> to see who's in the rooms with you. Then you can choose some body to send a private message to without broadcasting it to everyone!

Hint Number 7: You want to set your *Chats* for fast reply? Just type out what you want to say, hold <Fn> and <Ins> at the same time, and it'll be stored in memory! Then to use it, press the up arrow and select which one you want to send. Easy – FAST!

E-MAIL

Okay, now you have had a bit of a chat, you are ready to e-mail. This can be done totally off line, and can be sent to anyone in the world with CyberLoad. The only thing you need is their address. You know, blabla@blabla.com, or their CyID! (CyID@cybiko.com, and remember, you need to keep it in caps!)

1. On the Main Desktop highlight the picture of the mailbox and hit <Enter>.

2. When E-mail loads, drop down to *compose* and hit <Enter>.

3. Now, enter the address of your friend, then a subject. After that, you can type any message you want!

4. When you are done typing, just hit <Esc> and say *okay* when Cybiko asks if you want to put your new message in the *Outbox*.

5. The next time you use CyberLoad, your message will be zapped across the web and right into your friends E-mail or his Cybiko!

Clue Number 8: If you want to reply to a message in your *Inbox*, just highlight it and hit <Fn> and <R> at the same time!

HOW TO TURN IT OFF
POWER MANAGEMENT/SUSPEND MODE

When you are not using your Cybiko for a while, sleep mode is a totally cool way to save power! Do not worry, if your Cybiko is asleep it will still receive messages from others around it - and wake up if there is an urgent need to chat or play some games! Nice, huh!

Clue number 9: If you hold <Esc> for 2-3 seconds and then release it, Cybiko will go to the suspend mode (You will see *Suspend mode* on the screen). To wake Cybiko up, just hold <Esc> for several seconds.

Clue number 10: If you hold <Esc> for more than 4 seconds *Power OFF* will appear on the screen. To wake Cybiko up, just hold <Esc> for several seconds.

RECHARGE YOURSELF!

To power up and get back into play, just plug the charger into the wall, then into your Cybiko. Seconds later... YUM! You will totally be downloading energy! Oh, do not worry; you can still play while it is getting its daily juice!

Clue Number 11: For best results, charge overnight with your Cybiko on! Do not leave Cybiko plugged into outlet for more than 15 hours it could reduce battery life.

MORE!

Okay, now that you got the basics down, play around with it, do not worry, it will not bite!

Clue Number 12: Remember to check out its other killer functions like the Address/Phone Book, the User Organizer, the Money Control, and the Text Editor & Journal. (Do something with it, your parents paid good money for this! They will check – we know.)

Clue Number 13: If you ever need to know how to work a particular application just hit that little question mark and all it will tell all!

Not all of the Games and Applications come on your new Cybiko, but they can all be downloaded FOR FREE at **www.cybiko.com**! Go there, surf there, LIVE THERE!

All the games and apps, you can dream of! And if you have any more questions about your Cybiko, **The Complete Online And Totally Downloadable Instruction Guide** at the site can answer them! (Or you can just E-mail me at: manual@cybiko.com to get a printed version for only $2.50 to cover the shipping and handling.)

Write to: **Cybiko Inc.,** ATTN: "Get me a Stinkin' Manual"
One Tiffany Pointe, Suite 105, Bloomingdale, IL 60108. Or call 1-888-4-CYBIKO.

Have fun, and welcome to the Access Culture!

WARRANTY INFORMATION

Cybiko Inc. Limited Hardware Warranty ("Warranty") obligations are limited to the terms set forth below. Cybiko Inc. ("Cybiko") warrants this hardware product against defects in materials and workmanship for a period of one (1) year from the date of original retail purchase. If a defect exists in the Cybiko, power cord and serial cable, Cybiko will either repair or replace the product at no charge. To do so, Cybiko may use either new or refurbished parts, or Cybiko may exchange the product with a product that is new or which has been manufactured from new or serviceable used parts and is at least functionally equivalent. A replacement product assumes a warranty of 90 days. If Cybiko does not either restore the product to good working condition after a reasonable number of attempts or replace the product, Cybiko will refund the purchase price of the product. When a product or part is exchanged or a refund given, the replacement item, if any, becomes your property and the replaced items, or the item for which the refund was given, becomes the property of Cybiko or its Authorized Service Provider.

Exclusions and Limitations

This Warranty applies only to hardware products manufactured by or for Cybiko that can be identified by the Cybiko trademark, trade name, or logo affixed to them. Cybiko and its Authorized Service Providers are not liable for any damage to or loss of any programs, data, or other information stored on any media, or any products or parts not covered by this Warranty. Recovery and reinstallation of system and application software and user data are not covered under this Warranty.

This Warranty does not apply: (a) to damage caused by accident, abuse, misuse, or misapplication; (b) to damage caused by service (including upgrades and expansions) performed by anyone who is not a Cybiko Authorized Service Provider; (c) to a product or a part that has been modified without the written permission of Cybiko; or, (d) if any Cybiko serial number has been removed or defaced.

Governing Law

This Warranty shall be governed by the laws of the State of Illinois excluding its conflict of law principles and excluding the United Nations Convention on Contracts for the International Sale of Goods.
